

Transforming Practices Inc welcomes

THE SELF WHO SUPERVISES

Dr Michael Paterson

“We don’t bring cases to supervision. We ARE the case.” John Paton

The longer I supervise, the more convinced I am that the work practitioners’ do is but the tip of the iceberg and that truly transformative supervision plummets the depths and facilitates sustained dialogue between a supervisee’s soul (motivation) role (responsibilities) and context (people, dynamics, politics). Through input, group work and live in-the-moment creative supervision, this interactive workshop will explore what it takes to help practitioners be increasingly more Awake, Attentive, Agile and Audacious.

Dr Michael Paterson is an AAOS supervisor-trainer and Director of IPSRP in Scotland, an AAOS registered training provider. He is the author of multiple published works.

Date: Thursday, 9th May 2024
