This Synod session will be crucial as it will set the tone and lay the groundwork for the second gathering in October 2024.

The open consultative, listening style of the Instrumentum Laboris must be established as the normal operating procedure of the Church to enable it to regain credibility and relevance.

Particular issues such as the status of women, LGBTQI+ and remarried people must be resolved responsibly and compassionately.

We hope you can join us as we build this new way of being Church.
