# November 2, 2022

## 2pm - 4pm (Rome Time)

The  
Continental  
Phase

The continental phase of the Synodal journey has opened; it will end in March 2023, when the last phase, the universal one, will start in preparation for the Synod on Synodality in October 2023.

The document of the continental phase is the synthesis of the contributions gathered from around the world during the diocesan phase which arrived in large numbers at the Secretariat of the Synod by August 2022, also with the participation of UISG and USG.

In this meeting we will present and comment on the Document for the continental phase.

“

*The first phase of the synod has raised in the local churches a great desire to continue the path of synodality.*

”

**It is possible to participate online or at the UISG Headquarters  
Piazza di Ponte Sant'Angelo, 28, Rome**
